

The Associate of Arts degree (A.A.) at JCCC is a general transfer degree and partners with the first two years of most bachelor degree programs. Students pursuing the A.A. may select courses that satisfy both the A.A. degree requirements and lower division requirements for a bachelor's degree at four-year institutions. The 33 hours of electives within the A.A. allows students to complete additional general education and lower division courses required for specific majors. The A.A. degree requires completion of 64 credit hours. Meeting with a JCCC counselor is strongly recommended for selection of appropriate courses.

The College of Human Ecology offers a B.S. in Dietetics with two program options, a Coordinated Program and a Didactic Program. The Didactic Program is available on campus and by distance education through K-State's Division of Continuing Education. See www.humec.k-state.edu/hmd/dietetics.php for information about each program option and accreditation status. All students initially are admitted to Dietetics, and subsequently must apply for admission to either the Coordinated Program or the Didactic Program. Application deadlines and instructions are included on the website.

- E Up to half of the credits required for a four-year degree may be completed at accredited two-year colleges. The B.S. in Dietetics requires 125 semester credit hours; 62 credit hours can be applied from accredited two-year colleges.
- E Each student must complete at least 30 K-State resident credits to be considered for a degree from K-State.
- E A minimum of 45 hours must be at a course level of 300 or higher.
- E Students must complete 20 of the last 30 hours of resident credit at K-State.
- E Letter grades are required. Courses with "pass" or "credit" in lieu of letter grade can apply only as unrestricted electives.
- E Grades of "C" or higher are required in all "Professional Studies" courses and all "Natural Sciences" courses.
- E All K-State students are required to complete a specified number of University General Education (UGE) credits at Kansas State University. The minimum number of UGE credit hours required is based upon total number of completed transfer and advanced placement (AP, IB, CLEP, DANTES) credit hours accepted by Kansas State University.

Number of completed transfer/advanced placement credit hours accepted at K-State

00-07
 08-29
 30-44
 45 or more

Minimum UGE credit hours to be taken at K-State (At least six credits must be upper division)

18 (in four different areas)
 12 (in four different areas)
 09 (in three different areas)
 06 (in two different areas)
