

- ❖ The Master of Architecture degree (180 credit hours) is designed to be completed in five years, with one summer of academic work (study abroad or an internship with a firm following the fourth year of study).
- ❖ Transfer students planning to apply to the KU School of Architecture, Design and Planning should contact Michael Swann (see contact information above) while at JCCC, as soon as possible.
- ❖ Applications for admission for transfer students must be received by the KU School of Architecture, Design and Planning by October 1 (spring admission) and February 1 (fall or summer admission). Application materials should be mailed far in advance to ensure they are received by the deadline.
- ❖ Transfer students are admitted on a very selective basis, if space is available, if they have grades of C or better in one 3-hour required math course, one 4-hour physics course with laboratory, and have a minimum overall grade point average of 3.5.
- ❖ Students who wish to transfer graphics or design courses to the professional degrees may do so only upon **submission of a portfolio** of work done in such courses. Placement in the professional curricula will be based upon completed coursework and a review of the comprehensive portfolio of prior work in architecturally-oriented courses. Advanced studio placement is on a space-available basis. Please visit the school's website for guidelines on portfolio reviews (www.saud.ku.edu).
- ❖ Credit/No Credit - Acceptable for general education courses; not for ARCH courses.

**RECOMMENDED ONE-YEAR PROGRAM AT JCCC**

The curriculum below meets requirements for the one-year JCCC architecture transfer program to the five-year Master of Architecture degree at the University of Kansas School of Architecture, Design and Planning. This list is a suggested sequence of courses. These courses may be taken at any time; however, students should complete these courses before transferring to KU to stay on track with the first-year program.
