

The Associate of Arts degree (A.A.) at JCCC is a general transfer degree and partners well with the first two years of most bachelor degree programs. Students pursuing the A.A. may select courses that satisfy both the A.A. degree requirements and lower division requirements for a bachelor's degree at four-year institutions. The 33 hours of electives within the A.A. allows students to complete additional general education and lower division courses required for specific majors. The A.A. degree requires completion of 64 credit hours, the maximum number of hours from a community college that will be applied toward a bachelor's degree at most four-year schools. Meeting with a JCCC counselor is strongly recommended for selection of appropriate courses.

The athletic training program prepares students for careers as allied-health professionals and for the National Athletic Trainer's Association Board of Certification examination, which leads to certification and the credential of a certified athletic trainer.

Selective/Limited Admissions Policies to Athletic Training:

- Applicant must have **completed** at least 33-34 hours by the time of application and must complete at least 48 hours by the time of admission.
- No grade lower than C in English, communication studies or mathematics is acceptable.
- Students must meet requirements for admission to the School of Education and to the HSES department.
- Applications for admission to the athletic training program are due May 1 for fall admission. Admission is once a year. The number of openings depends on the ratio of students to clinical instructors (8 to 1) and may vary depending on current enrollment. If the number of applicants exceeds available openings, applicants are ranked by cumulative grade point average (2.5 minimum), final grade in HSES 250 or equivalent course (percentage score), results of an on-campus interview, recommendation letters and ACI/CI evaluation (except for transfer students).
- Applications may be obtained in 161 Robinson Center or 208 J.R. Pearson Hall.
- Athletic training is a rigorous and intense program. The program's technical standards establish the qualities necessary for students to achieve the knowledge, skills and competencies of entry-level athletic trainers. Students who cannot meet these standards, with or without reasonable accommodations, will not be admitted.
- See the KU catalog for additional admission requirements that include letters of reference, a statement of career goals, physical examination, CPR and first aid certification, etc.

Students must complete 800 hours of clinical experience to meet Kansas athletic training registration requirements.

* Courses marked * below must be completed prior to application to the athletic training program.

† Courses marked † below must be completed prior to admission to the athletic training program.

Sixty-four credits may be transferred to KU from community colleges. Students should be aware that 45 junior/senior credit hours are required for completion of the bachelor's degree; 30 of those hours must be at KU; and community college courses do not transfer as junior/senior hours.
